

COMPANY PROFILE

ABOUT US

Passion, dedication, love for sport and competitions, from the **collaboration of companies leaders** in the field of nanotechnology, years of continuous **research and development** with prestigious universities, research centers and countless **tests** carried out with athletes and teams in various competitions: from road cycling to the paddocks SBK and MotoGP, from Motocross to Triathlon, from offroad cycling to Rally and GT and Endurance championships born **+NANO SPORT**, a line of products whose purpose is the protection of surfaces in order to avoid

degradation over time. We provide **long-lasting protection** in the time with **hydrophobic effect** and as a result we get a **reduction in maintenance costs**.

All activities carried out in the laboratory and tests on treated environments and the people who have lived have shown the absolute non-toxic to humans and no release of harmful particles in the environment.

+NANO SPORT is in fact a spin-off of +NANO already active with its products in prestigious areas such as: Yachting, Hotellerie, Residential and Exclusive Club.

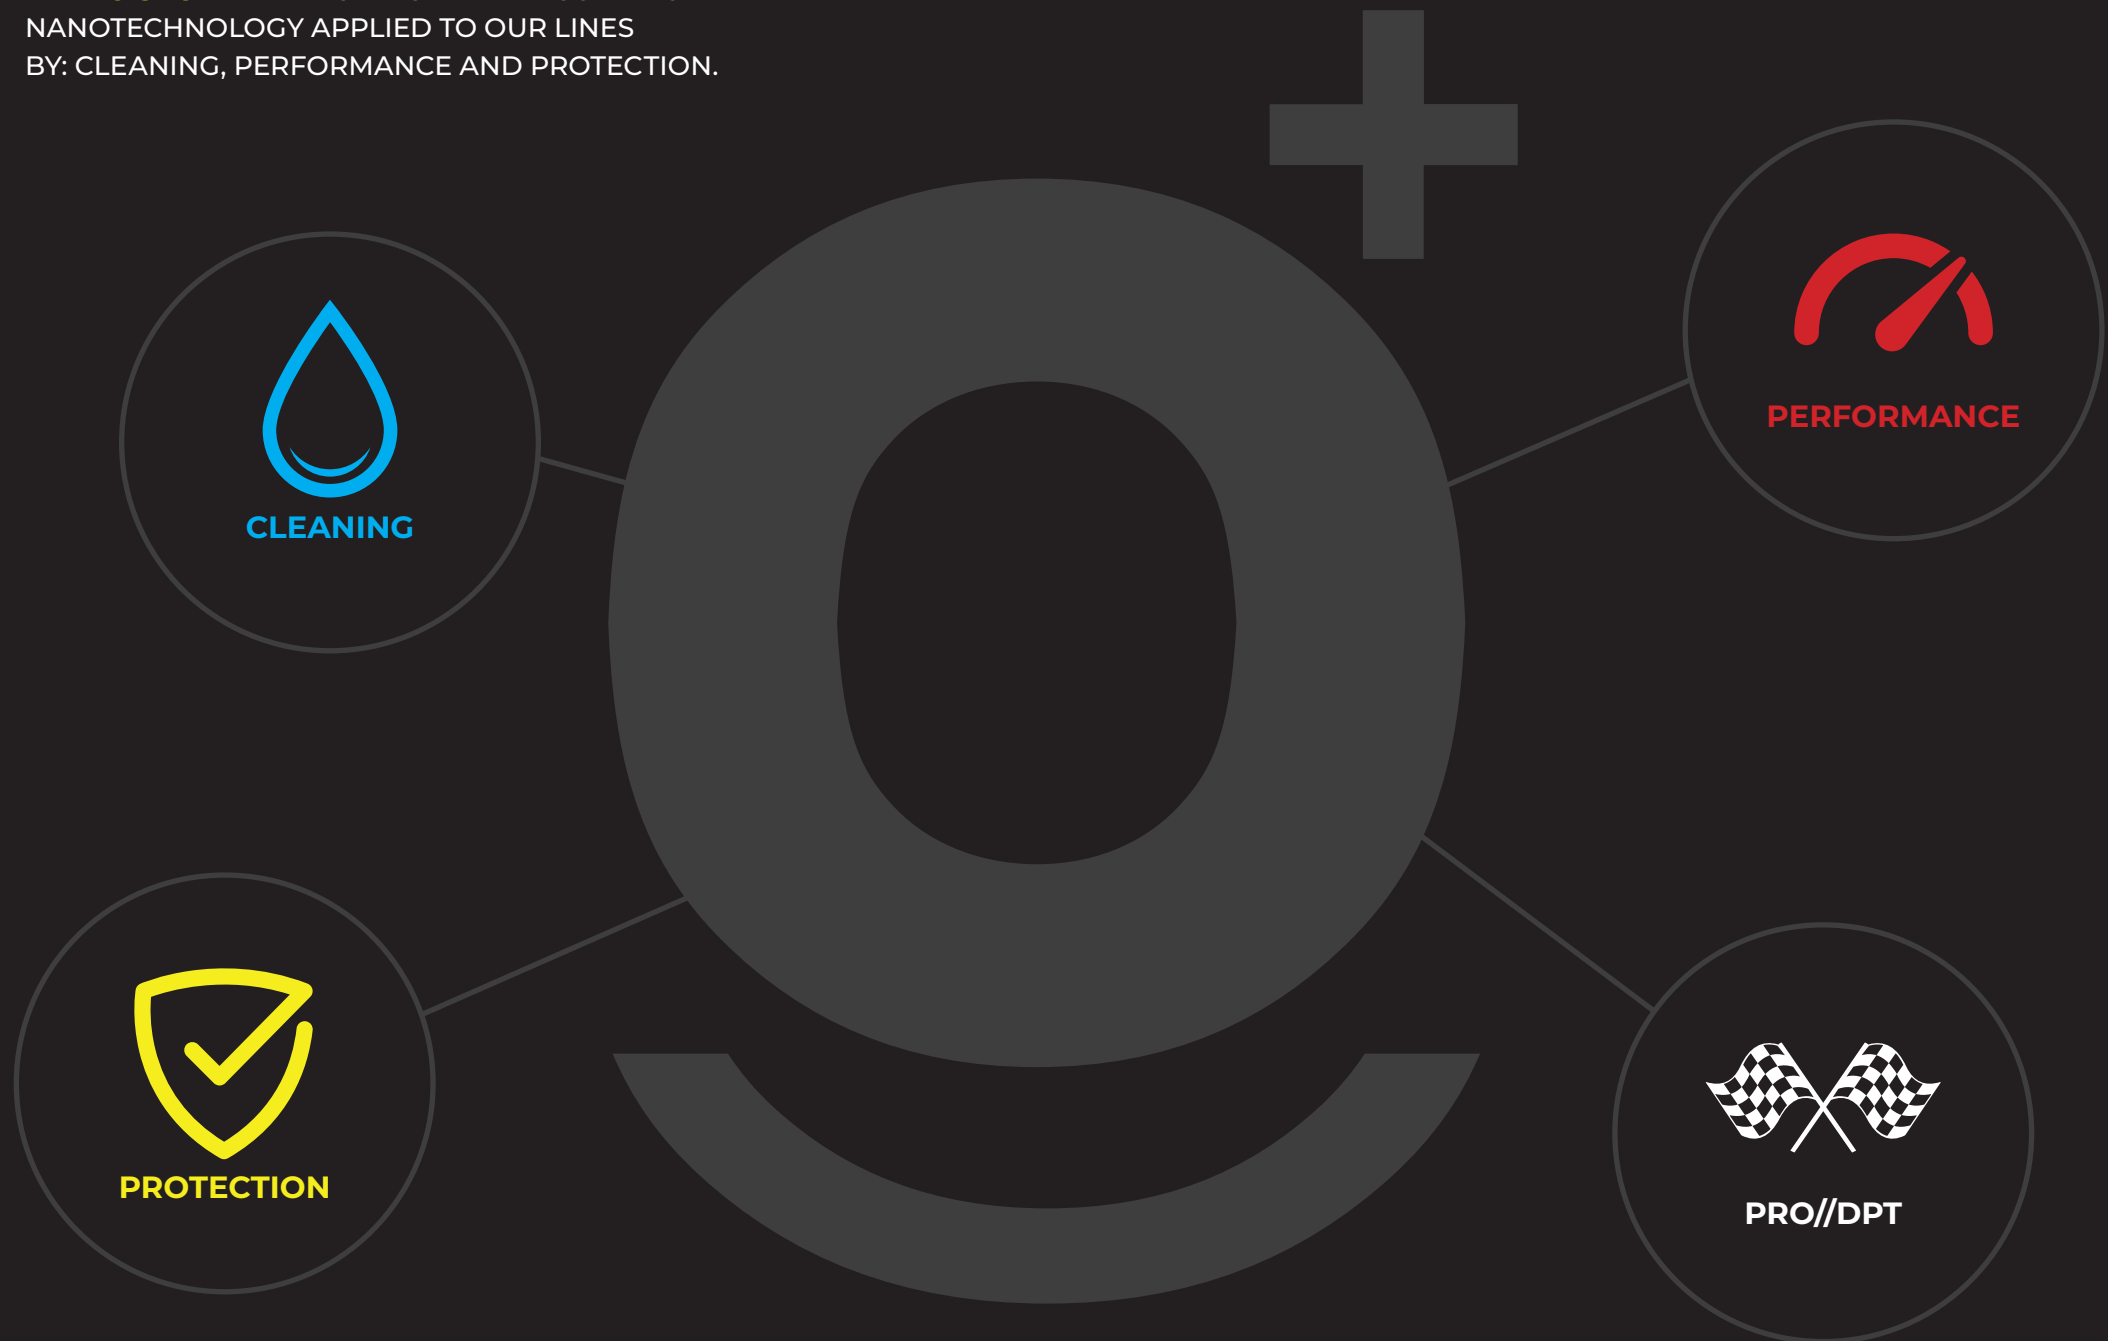

+NANO SERVICE

PROFESSIONALISM MAKES A DIFFERENCE

Our **SERVICE** consists of staff highly qualified and always updated is available for the **Supply and Installation** service. Performing treatments at a professional level we can guarantee a perfect application.

The excellent quality of our products, combined the perfect application can guarantee **maximum performance and durability**.

+NANO SPORT REPRESENTS THE VANGUARD OF THE
NANOTECHNOLOGY APPLIED TO OUR LINES
BY: CLEANING, PERFORMANCE AND PROTECTION.

Made for the ordinary maintenance and cleaning of: bicycle, motorcycle, car both in the aesthetical parts that mechanics. Dedicated to the user who wants to take care of constantly of their passion.

Designed in such a way that nano particles inside our products are placed on the surface creating a invisible and durable protective barrier. The surface will result completely resistant to external contamination. The treated areas are: hydrophobic/oleophobic, dirt repellent, UV stable, totally unaffected by sight and tactile and breathable.

PERFORMANCE

Born to create two innovative lubricating fluids, specially developed for the lubrication of chains and parts mechanical. Equipped with non-stick properties, which allow to repel water and mud have the power to decrease the coefficient of friction making it possible to increase performance.

PRO//DPT

Our Pro/Department guarantees teams and athletes receive the best from our technologies thanks to specialized staff. These activities provide us with numerous feedback, essential for our research and development with the aim of improving the performance of our products.

ON SITE SERVICE

We perform professional treatments directly at competitions and events both nationally and internationally. Given the great interest, we have created a professional service dedicated exclusively to athletes and teams for the direct application of our products on bicycles, motorcycles, cars and equipments.

PRO LAB SERVICE

We have created an exclusive remote service so that athletes and the teams that choose us can send their equipment and clothing so that our specialized staff can submit it to the most appropriate nanotechnological treatment.

PARTNERSHIP

Ambassador

MATTEO CRESSONI – WEC , ELMS

Ferrari driver and driving instructor, champion Italian and European Vice-champion LMES. Class 1984, comes from Volta Mantovana, ITALY Matteo moves from go-karts to cars formula, first in Formula Renault 2000, then in Formula 3000 and finally in Formula 3 where, in 2004, he graduated Italian Champion. The conquest of the title also brings the deserved visibility and in 2005 Matteo enters the orbit Ferrari that, with BMS Scuderia Italia, ranks him

in the LMES European Championship where, edge of a 550 GT1, you graduate Vicecampione European. 2020 Italian pro-am champion, 2021 yes ranking 3 at the 24H of lemans, 2021 CHAMPION EUROPEAN LE MANS SERIES FERRARI 488 GTE - IRONLYNX

He is currently working with the Iron team Lynx in the ELMS European Championship, in World GT3 with Porsche and Italian GT with Lamborghini.

SNIPERS
TEAM

SPONSORSHIP

TEAM SNIPERS – Moto3 FIM World Championship

One of the stables with half century of experience in competitions motorcycles. The story of Snipers was born in 1964, by experience and passion by Giancarlo Cecchini; in his hands are past great champions and 8 world were won with him, the last in 2004 with Andrea Dovizioso. The Pesaro Team is from always protagonist in the category Moto3. Currently it is the son Mirko who carries on the passion of the father and the name Snipers is just an international and nice way to pay tribute to him.

COLLABORAZIONI

STARLINE

The graphic studio Starline was born in Pesaro, ITALY in 1987 from an idea of Roberto Marchionni, who combining his passion for graphics and engines, start drawing helmets for riders of almost all motorsport specialties: karting, auto, motocross, enduro, speed and minimoto.

Among these drivers, there are also future champions like, Valentino Rossi, Marco Melandri, Manuel Poggiali, Roberto Locatelli and many others.

The Starline also deals with graphics coordinated for Teams and companies, designs the graphics for motorcycles, suits and everything that rotates around the motor world.

NOVAMARINE

WORLD ICON IN THE NAUTICAL WORLD

Comparing Novamarine to any other nautical vehicle is simply impossible. What makes a Novamarine in each owner is a constant combustion of indescribable emotions. In each person different emotions arise, but what brings them all together is the unrestrainable attraction to try it and the absolute love after having done so.
